Elaine:

I just realized I left you off of both of the e-mails below (mea culpa! At least I was consistently forgetful!). Sorry for the oversight.

Thanks,  
Valerie

Just a reminder - Rick's direct reports are encouraged to attend all of the project reviews (when possible). Please hold the dates accordingly. At a minimum, direct reports who are program area coordinators should plan to attend that project review in which their program area is being covered.

Let me know if questions.

Thanks,  
Valerie

**Subject:** Remaining 2002 WSA Project Reviews

Dear project leaders:

As was discussed during the project review last Friday, we will complete one additional cycle of project reviews this year before we begin the planning cycle for 2003. To that end, the scheduled project reviews for the remainder of 2002 are as follows:

May 21 (8:30 am - 12:00 noon, Richmond time) (Program areas covered: Cancer, CVD, COPD)  
June 25 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Repro, ETS, Smoke Exposure)  
July 23 (8:30 am - 10:30 am, Richmond time) (Program areas covered: Acceptability Assessment, Harm Reduction Guidance/Evaluation)  
August 27 (8:30 am - 11:30 am, Richmond time) (Program areas covered: Clinical Testing, Non-Clinical Testing/Research, Communication)

Please make a note of those dates in which your projects are being reviewed and hold those dates on your calendars. Details confirming agenda and location will be circulated closer to the actual review dates.

For reference, I have attached the current list of projects organized by area.

If any questions, please let me know.

Thanks and kind regards,  
Valerie
